DETAILED ACTION

Allowable Subject Matter

Claims 1-18 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art does not teach or suggest a scanning type display optical system having a deflection device and an image forming system where a direction from which the light beam coming from the light source is incident on the deflection device is oblique with respect to at least one of the deflection axes of the deflection device and the image forming system has an optical element which is tilted or shifted with respect to a center axis of a two dimensional deflection range over which the light beam is deflected by the deflection device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
